

# **Task Force Movement: Life-Cycle Pathways for Veterans and Military Into Trucking**

**Supporting the White House Trucking Action Plan to Strengthen America's Trucking Workforce**

---

**Task Force Movement: Life Cycle Pathways for Veterans and Military to Trucking** is a group of military life cycle experts and trucking industry specialists who saw a need to focus on creating recommendations and quickly operationalizing solutions to support the **White House Trucking Action Plan to Strengthen America's Trucking Workforce** while improving the lives of Transitioning Service Members, Veterans, and Military Families through career pathways into the trucking industry.

The military community and trucking industry face unique challenges in their respective spaces from unemployment and underemployment to shortages of drivers compounding the negative effects of existing supply chain issues. By bringing these communities together, we can reverse these trends by connecting military families with good-paying, family-sustaining careers that provide stability, a sense of purpose, and work-life balance while helping the trucking industry find quality candidates who are hard-wired for success.
